

## **JOB DESCRIPTION**

### **Web designer**

Preferred Location: Mouans - Sartoux (France)

LuxCarta focuses on creating and delivering geospatial products for the global telecom, simulation & training and other vertical markets. We specialise in the rapid production and delivery of quality fit-for-purpose mapping products to expert end users utilising the latest technology advancements achieved through extensive R&D. Our customers are supported by skilled geospatial experts in their time zone through five corporate offices worldwide.

BrightEarth™ is LuxCarta's product line created using AI-enhanced production techniques. BrightEarth web services offer high-resolution building and tree extraction, 23-class land use/land cover (LULC) and digital terrain model (DTM) creation using various imagery sources in real-time. It also incorporates a seamless cloud-free global mosaic, 23-class LULC, and time-of-day population maps derived from Sentinel-2 imagery at 10m, updated regularly. Based on more than 30 years of geospatial and remote sensing expertise, these innovative products are ready for immediate download or accessible via APIs to support a system-level integration. There is no place in the world that LuxCarta can't illuminate with BrightEarth.

#### **Main responsibilities:**

As a web designer at LUXCARTA, you will be responsible for:

Design attractive, intuitive and functional web layouts, considering customer and end-user needs.

Create mock-ups, prototypes and visuals for websites using design tools such as Adobe XD, Sketch, Figma, or equivalent.

Work closely with the development team to ensure successful integration of designs.

Optimise graphic elements for optimal web performance.

Ensure brand and visual identity consistency across all digital media.

Stay up-to-date on web design trends and best practices to maintain the quality and relevance of our designs.

#### **Requirements:**

To be successful in this role, you must have the following qualifications:

Degree in graphic design, web design, or related field.

Previous professional experience in web design, ideally 3-5 of experience.

Proficiency in graphic design tools such as Adobe Creative Suite, Sketch, Figma, etc.

Knowledge of UX/UI design principles and web ergonomics.

Ability to create responsive designs adapted to mobile devices.  
Excellent communication and collaboration skills.  
Strong portfolio of previous web design projects.

**Additional assets :**

Knowledge of accessible web design (WCAG compliance).  
Animation or illustration skills.  
Experience creating visual content for social media.  
Understanding of front-end technologies such as HTML5 and CSS3.

**What we offer:**

A stimulating and collaborative work environment.  
Opportunities for professional development and continuing education.  
The chance to work on innovative and exciting projects.  
If you're a motivated Web designer looking for a new opportunity with a fast-growing company, we'd love to discuss your application.  
remuneration in line with experience

**How to apply:**

Please send your CV to [nadja@luxcarta.com](mailto:nadja@luxcarta.com) with "Web designer - [Your name]" in the subject line.

We thank all applicants for their interest, however, only those candidates selected for interviews will be contacted.

Don't forget to include examples of your previous projects or a link to your portfolio, if applicable.
